Introduction

The world is developing daily and everything is becoming digital. We don't have to go to shops to buy groceries, electronics, clothes, shoes, and lots more, when we can do that at the comfort of our homes.

Digitalization has made our lives much more easier and comfortable than it used to be over the years. This is where GiftedHands Project comes to play.

About GiftedHands Project

GiftedHands Project is a proposal that presents a better, safer, quicker and easier way of living, through digitalization and crypto currency. This can be achieved through GiftedHands shopping platform and GiftedHands Token. This shopping platform will be accessed worldwide and you will be able to buy almost everything that is a necessity in

life. Paying bills on online platforms is a little bit hard especially when it is a worldwide platform and very risky when using your credit card. That is why we choose crypto currency as our payment method. Paying bills on this platform will be made using GiftedHands Token (GHD), to make it very easy and safe. GiftedHands is presenting a big change in the society and the world at large.

GiftedHands ShoppingCentre

GiftedHands shopping Centre is a decentralized shopping platform where people all over the world- mostly companies, sell different items, goods and services to the masses. These goods and services have a wide range starting from the least to the most. You can also employ services of developers and freelancers and pay them using GHD. This online shopping is managed by group of people-a community.

Pros

Reliable : Services and goods provided in GiftedHands shopping centre are very reliable and trusted.

These goods and services are provided by trusted companies and individuals that have been verified and considered authentic by our community.

Easy/Global accessibility : You get easy access to common and uncommon goods and services on this platform. It can also be accessed globally. No matter where you are in the world, you can patronize the services of this platform without any issues or restrictions.

Peer-to-Peer Interaction : man when it comes to marketing or doing There is no middle business. You interact directly with your sell or freelancer. The community is just there to make sure dealers are 100% legit and secure. This is to say that, GiftedHands Shopping Centre is a decentralized platform.

Quick and Safe : Like it was said earlier, the community is made to ensure the safety and security of individuals who use the platform. They hand pick dealers and freelancers who are trusts worthy to carry out their duties admirably. So your security and durability is guaranteed.

Cons : As of the time of this project, we sighted no cons on this platform and hope for none in the nearest future.

GiftedHands Token

This is the financial part of this project and quite the most interesting part too. GiftedHands Token (GHD) as mentioned is the primary payment method for the project. It is a cryptocurrency issued on Ethereum blockchain and benefits from all the resources of this block chain. It also carries out all the function of a cryptocurrency and can be listed on exchanges. This is very important for traders, because huge profit and increase in token price is an assurance in this project.

GHD has a total supply of 200,000,000 GHD and this amount cannot be increased for life. It is distributed as

follows:

30% 60million GHD -Investor

30% 60million GHD -Reserve
(freeze)

20% 40million GHD -ICO/IEO

10% 20million GHD -Team

10% 20million GHD - Affiliate program and
bounty.

Benefits of using GHD as project payment method

Security : Using a crypto currency anywhere gives you a 100% security over your funds and a 99.9% chance of not being hacked. For someone to be able to hack GHD, you must hack then main Ethereum block chain itself, which is practically impossible.

Peer-to-peer transaction : Using GHD as our payment method excludes the middle men (PayPal, Quickteller, Payme, etc) and the extra fees that they charge. It therefore reduces the cost of purchasing and paying for items on our media.

Anonymity : You don't need to disclose your person details when paying bills using GHD. Some people have lost a lot of money by giving out their credit card information on different Medias. GHD You don't need to disclose solves this problem too. When using GHD, you won't be required to share your personal info on the

site or to individuals involved. This eliminates the risk of disclosing information that might fall in the wrong hands.

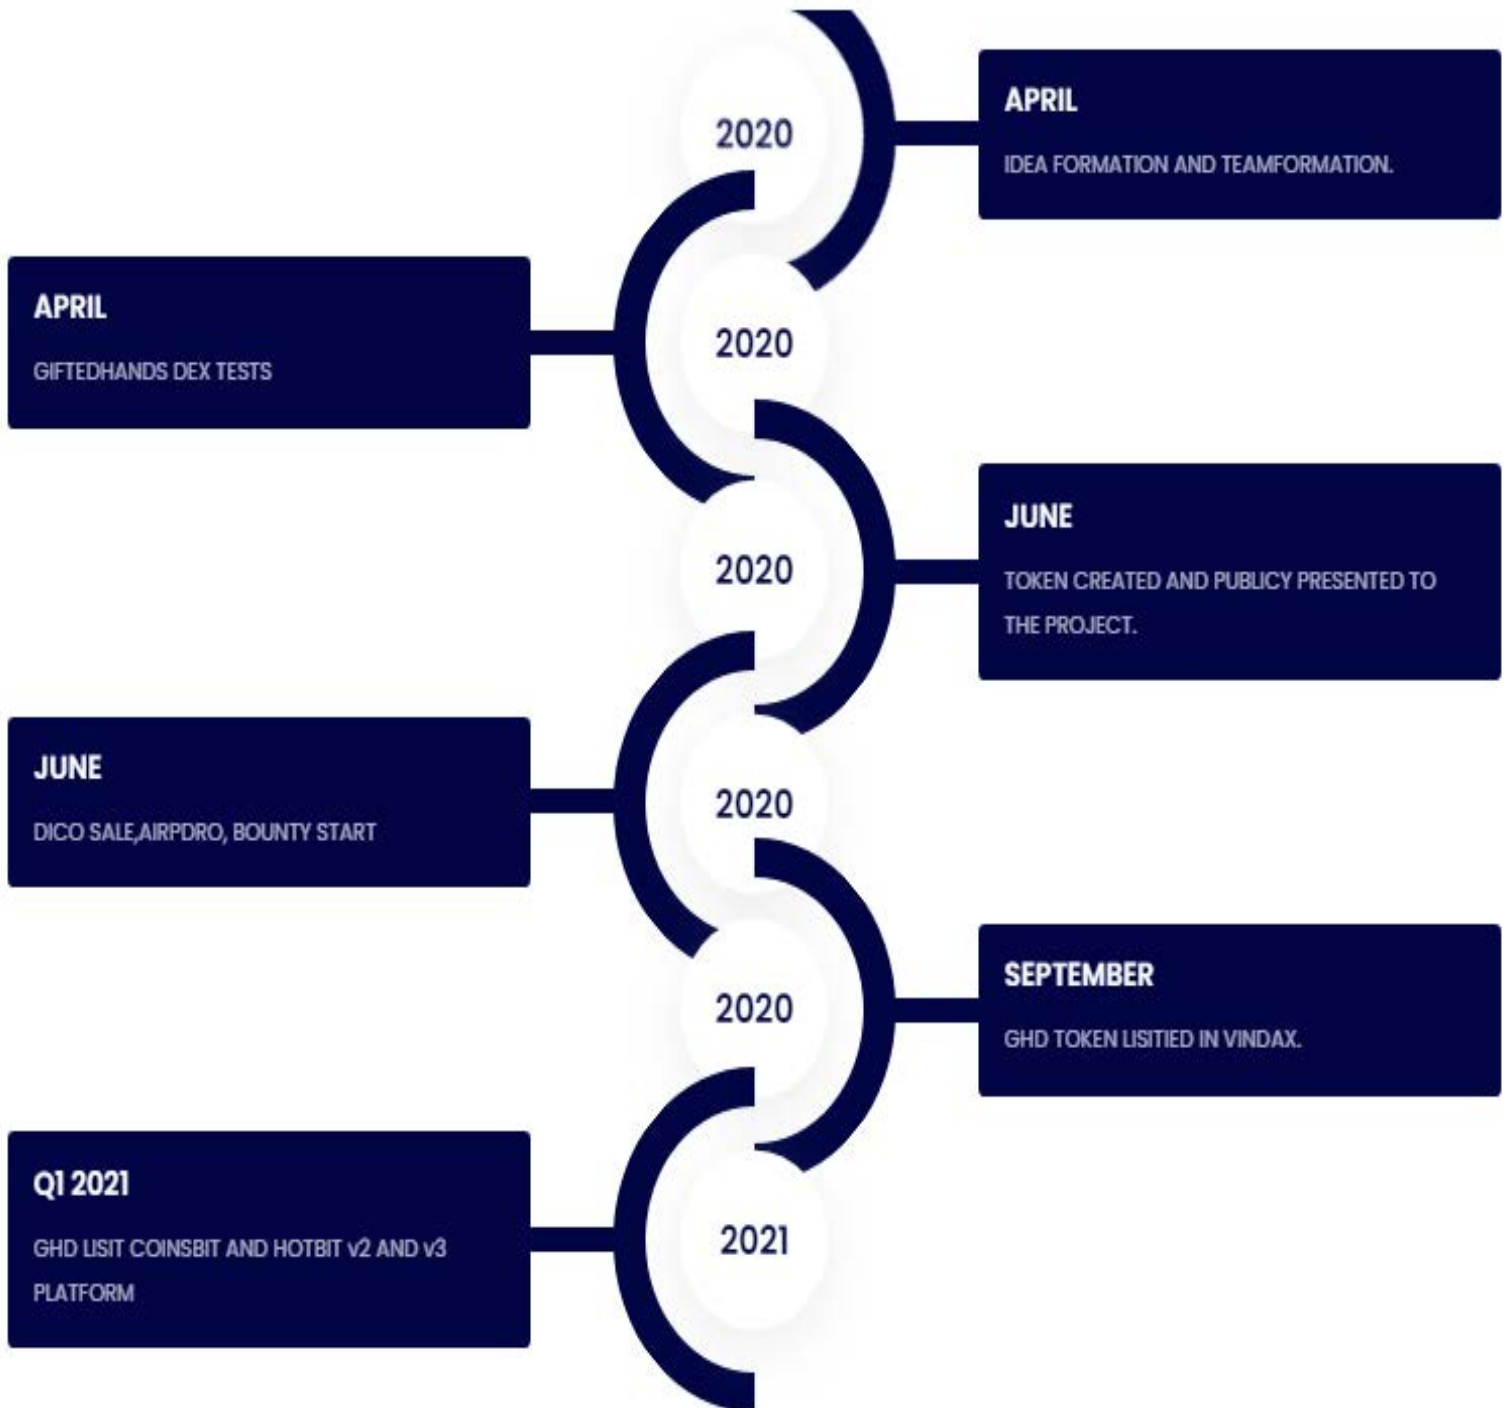

No Limitations : You can accumulate as much GHD balance as you want, without limitations. This is possible because of the decentralized system we have adopted. Full control over your funds, no limitations, no interference.

Investing in GiftedHands Project

This is the most significant and important accomplishment all the goals of this project, will need funds to carry out all requirements to fulfill our goal. These funds will be gotten from investors and ICO/IEO who buy GHD at an early stage. Investors and individuals that participate in the early stage development of this project will be given 30% and 20% bonus of the amount of token they buy.

Investing in GiftedHands Project might be the best thing that has ever happened to you. GHD will practically increase in price after it is listed on several exchanges and its platform is up and running. Do you know why? What makes a currency rise in price? - demand. What brings about demand? - Utility. That is where we have GHD Online Shopping. The more people use this platform, the more the demand for GHD. The more the demand, the higher the price of GHD. At this time, only holders, that is to say that, Investors and Self droppers will be the only suppliers and beneficiaries of GHD.

ROAD MAP

Conclusion

GiftedHands is an amazing project that involves a platform for online shopping, business and product promotion, crypto currency investment, freelancing services and blog design/template. It intends to take digitalization to a greater height and make life easy for people. This can be established through the purchasing of GHD by people, for development of this project. Those who participated in the funding of this pproject are assured great profit when our goals are met.
